TWENTIETH
ANNUAL CATALOGUE
OF
NURSERY STOCK
LA FAYETTE, ILLINOIS

INDEXED.

TURN TO PAGE 18. READ WHAT MUST BE DONE.

INDEXED.

SPRING OF 1916

I TAKE pleasure in presenting my price list, which affords me the opportunity of thanking my patrons and friends for the liberal patronage bestowed upon me in the past, and I hope by honorable dealing to merit a continuance of your esteemed orders. My catalogue, although in a condensed form, contains the cream of varieties valuable for the orchard, garden, park or lawn.

As my business grows, you will notice I have, in a way, extended my catalogue. I do this not only because it gives me pleasure, but gives the public more of an idea as to the business done. My catalogues in years past, have brought me into closer contact with the people far and near. I was going to give a part of my book to testimonials, but I deem this unnecessary. It is my aim in business to give you full value for money received at all times, for either fruit or plants. Who can do more? I am after your trade and am sure to please. Buy of the man you know is in business and you can see by these testimonials how they are taken care of, only a chance and I will treat you the same way.

I wish to throw a few lines about my nursery stock and I will not condemn anyone's. To run down another man's goods to sell your own is poor business. But I wish to say this: I am going to place on the market this spring the best goods you have ever bought from any nursery. This is saying a good deal, but I am here to please. You sign a cut-throat contract with your agent to take the goods when delivered, and he is out of it, and to pay for them, in most cases, part down and the rest when the goods arrive. Not so with me. Give me your order and not a cent down, then if the stock is not entirely satisfactory, return it. You sign nothing and pay nothing until goods have been found as represented on day of delivery.

To those unacquainted with me will say this is the twentieth year of my experience in the nursery and that in my patronage it is my aim at all times to have a purchaser satisfied with articles bought, whether it be a large or a small amount.

If, after the best of care has been taken, they die, I replace such trees and plants at one-half price, except where notices is given to the purchaser in the catalogue just above the article bought. But I do not insure their lives. Errors will always be cheerfully corrected; plants not true to name as represented will be replaced by others of correct kind and grade without charge.

All articles, after leaving my hands in good condition, are at the risk of purchaser, and no complaints will be entertained unless made at once after receipt of goods.

RETURN TO POMOLOGY

SECTION OF NOMENCLATURE

MAR 16 19

We Are Located Just About 140 Rods East of The Rock Island Depot in La Fayette, Ill., but Mail All Orders and Correspondence to 617 S. Main Street Kewanee, Ill.

INDEXED.

TERMS CASH—Remittance by draft, post office or Express money order. Do not send personal check except near shipping point. Orders to be shipped C. O. D. must be accompanied by one-fourth the amount in cash.

MAIL ORDERS—Will receive my personal attention and be carefully packed for shipment. Orders delivered at Kewanee, Wyoming, Toulon, Galva, Altona and Victoria free of charge. Your correspondence cheerfully solicited; questions answered as far as possible.

CERTIFICATE OF HEALTH—Our grounds are annually inspected by authority of the State Entomologist and I hold a certificate from him that there are no dangerous insects or contagious diseases.

You will notice at a glance that this catalogue does not claim to have 100 or 300 acres of a nursery, then estimate up to 20 or 30 acres of growing nursery stock. My aim is to have the people see, through these pages, just what I have and just what I have for sale. I am growing most of the stock I sell, but, like all other nurseries, have to buy some to supply with, of other reliable nurseries. I sell to other nurseries and people who read this catalogue will see the number of acres devoted to the business is around thirty. People who have and will patronize me, will find me reliable. My claim and guarantee is this: These trees, plants and shrubs are as good as the best, and as reasonable in price as you will find any place. Just compare the prices with competitors, and then the stock, and come to see for yourself. Pick out just what you want, and I will see to it that you are a satisfied customer.

To Whom It May Concern:

I have used Mr. George A. White's nursery stock for a number of years and have always been well pleased. If anything is not absolutely right, he makes it right. We have bought many a rose bush from him, and although cheaper than most catalogues quote, we find him fully equal in size and quality to higher priced ones, and fully as sure to blossom true to name. His raspberries are simply immense, and when he makes you a strawberry bed prepare to pick berries.

J. L. LYON,
Toulon, Illinois.

To Whom It May Concern:

LaFayette, Illinois.

This is to express my gratitude for the very courteous manner in which I have been treated by G. A. White in my dealings with him. I have purchased small fruits and trees of him for the past ten years and they have given the best of satisfaction. In case of any loss by dying he has been very good in replacing same. Wish him continued success.

G. N. BUFFUM.

Descriptive Catalogue and Price List

Read this over carefully before you place your order for nursery stock. It has been a custom of mine to try not to have in my catalogue any variety of fruit or plant not worthy of your attention, also not to give you any authority on the different varieties mentioned herein, without a label as to their genuine, true name. I have been making a careful study for the last eighteen years of the different varieties to be able to call them by name by sight, color of bark, and so on, regardless of label. Men of years experience according to their own proof are able to tell only a few of the many varieties by their shape or color. I can make a good guess—so can you. There are so many varieties of apples that have apparently the same color of bark, and the same applies to peaches, that I have found it best to rely upon a label, and no man's word for the variety it is by sight.

In presenting this catalogue to the public, I intend it to be the only one in which you can find such offers; also that the articles mentioned here you will find to be the hardest and most free from disease of any. We take pleasure in giving our patrons the very best trees and plants that money can buy in any nursery. In the last few years I have bought and set out for myself a great deal of this kind of stock and it places me in a position to know varieties best for cultivation in this section. I admit there are many varieties of fruit I have not cultivated and tested their merits. In presenting this pamphlet I will give you a few leaders for the spring of 1916 only.

APPLES

If these trees die they will be replaced for 10c each.

Any variety, 3 years, 5 to 7 feet, each 30c; 10 for \$2.50; 100 for \$25.00. Duplicate this offer if you can, where the trees are the height of these. Crab apples, any variety, 5 to 7 feet, each 30c. List of first class apples:

SUMMER

Astrachan, red striped or greenish yellow.

Dutchess of Oldenburg, streaked red and yellow.

Early Harvest, yellow with heavy stripes.

Red June, deep red.

Yellow Transparent, yellow with flush.

Summer Rambo, yellow striped, with red on sunny side.

FALL

Autumn Strawberry, streaked with red.

Maiden's Blush, yellow with slight blush.

Pound Sweet, large pale green.

Bailey Sweet, the large striped sort.

Snow, crimson outside, white in.

Wealthy, large red, very productive.

Wolf River, striped with red.

Utters Red, large, red striped.

Your Neighbor Will Want Something to Plant. Let Him Send With You

WINTER

Arkansas Black, dark red, mostly black.
Ben Davis, striped with red.
Delicious.
Dominie, greenish yellow.
Golden Russet, yellow russet.
Grimes Golden Pippen, large yellow.
Jonathan, dark red, extra quality.
Northern Spy, striped.
N. W. Greening, greenish yellow.
Mann, when ripe, deep yellow.
Roman Stem, yellowish white.
Rhode Island Greening, large yellowish green.
Roman Beauty, yellow striped with red.
Salome, yellowish red, extra quality.
Seek no further.
Talman Sweet, pale yellow, tinged with red.
Willow Twig, greenish yellow, striped with dull red.
Missouri Pippin.
Wine Sap, deep red.
Winter Banana, beautiful yellow fruit.

I have several varieties not mentioned here, which I will offer this spring. Will say this list is composed of the old reliable sorts and always found in demand. Have several varieties of new sorts at the same price. Do not be misled and buy small inferior trees when you can get such nice ones for the same money of me.

PEARS

Five to Seven Feet

| | |
|---|--------------------|
| These trees will be replaced for $\frac{1}{2}$ price. | |
| St. Kieffer, Seckles, each..... | 40c, 10 for \$3.50 |
| Bartlett, Koonco, each | 45c, 10 for 4.00 |
| (Claps Favorite) Lincoln, Flemish Beauty, each.. | 45c, 10 for 3.50 |
| Dwarf Pears, Duchess and Seckel, each..... | 40c |

PEACHES

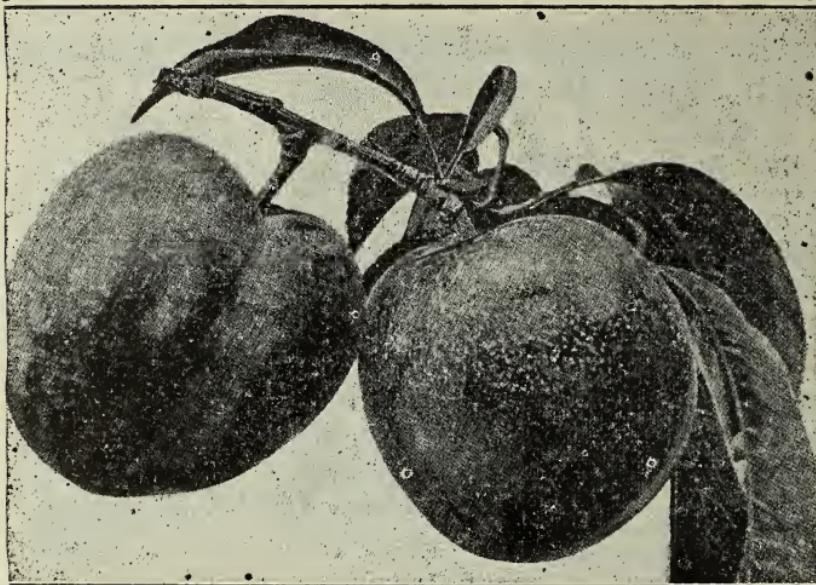

Five to Six Feet

| | |
|--|--------------------|
| These trees will be replaced for 10c each. | |
| First Class Trees, each..... | 25c, 10 for \$2.00 |
| Leading varieties—World's Fair, Alexander, Champion Crosby, Greensboro, Crawford's Early, Crawford's Late, Elberta, Stump of the World. These peaches are the best you ever bought for the money, in fact you can buy no better. | |

I find the nursery stock you buy of G. A. White to be all right and the fruit fine. Bought trees and small fruit and the fruit is very satisfactory.

Respectfully,

ELMER CRAIG, Kewanee, Illinois.

PLUMS

Five to Seven Feet

These trees will be replaced for $\frac{1}{2}$ price.

Japan Varieties, each..... 35c, 10 for \$3.00

Having had experience with the fruit upon the market will say the Japan exceeds them all.

Japan varieties—Burbank, Calco, Satsuma, Abundance.

Native varieties—Desota, Milton, Weaver, Pottawatomie, Wild Goose.

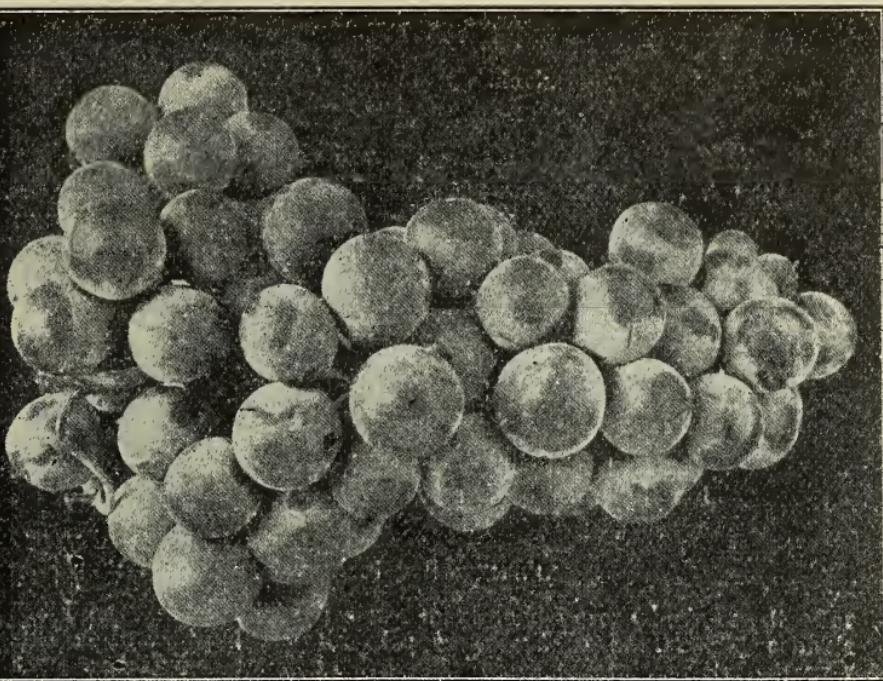

European varieties—Bradshaw, Damson, German Prune, Green Gage.

Plums are the bery best.

I have bought nursery stock of G. A. White for the last ten years and find it to be first class in every respect, and the prices are far cheaper than you can buy elsewhere. Fruit will suit the most exacting, and no growling around about the replace if there be any.

Respectfully,

HARRY DUNBAR, Galva, Ill.

**Concord Grapes, the Best and Surest
GRAPES**

Replaced for $\frac{1}{2}$ price.

We grow these in great abundance for the market, and varieties listed are good as the best. Have fine rooted plants for 1916, the same as others charge 25c and 30c for.

Concord, each 15c; 10 for \$1.25. Others 40c, 5 for \$1.50.

Notice the price of these two-year-old vines. Good roots. Campbell's Early, Moore's Early, Pocklington, Moore's Diamond, only 20c. Where can you buy as good for such prices? Have several varieties at 20c each.

G. A. White, LaFayette, Ill.

The trees, rose bushes and shrubs bought of you are doing fine. Wishing you success, I remain,

Respectfully,
MRS. ED. JACKSON, LaFayette, Illinois.

G. A. White, LaFayette, Ill.

Having bought trees and plants from you for a good many years, I find them to be very satisfactory. Berries of the best and prices are very reasonable. Wishing you the success your dealings deserve, I remain.

Respectfully,
ARTHUR BALTIMORE,
LaFayette, Illinois.

CHERRIES

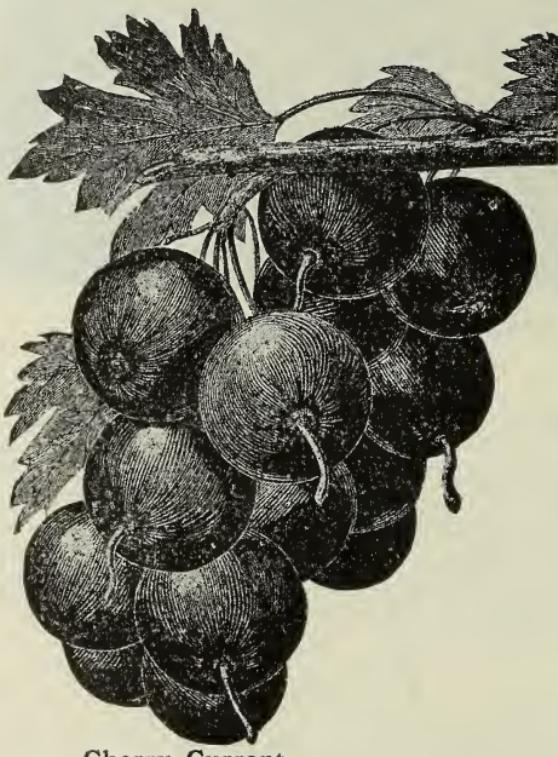

These trees will be replaced for 20c each.

I have two grades to offer this spring.

The 3-4-inch which is sold by most nursery men for 75c and \$1.00, I will offer for 45c each; 10 for \$4.00.

Leading sorts—Early Richmond, English Morello, Montmorency, Sweet varieties, Governor, Napoleon.

The above trees are all nice trees well worth the money and are sure to please.

Cherry Currant

CURRENTS

Replaced $\frac{1}{2}$ price.

Two - year - old roots different varieties, each 10c; 10 for \$1.00.

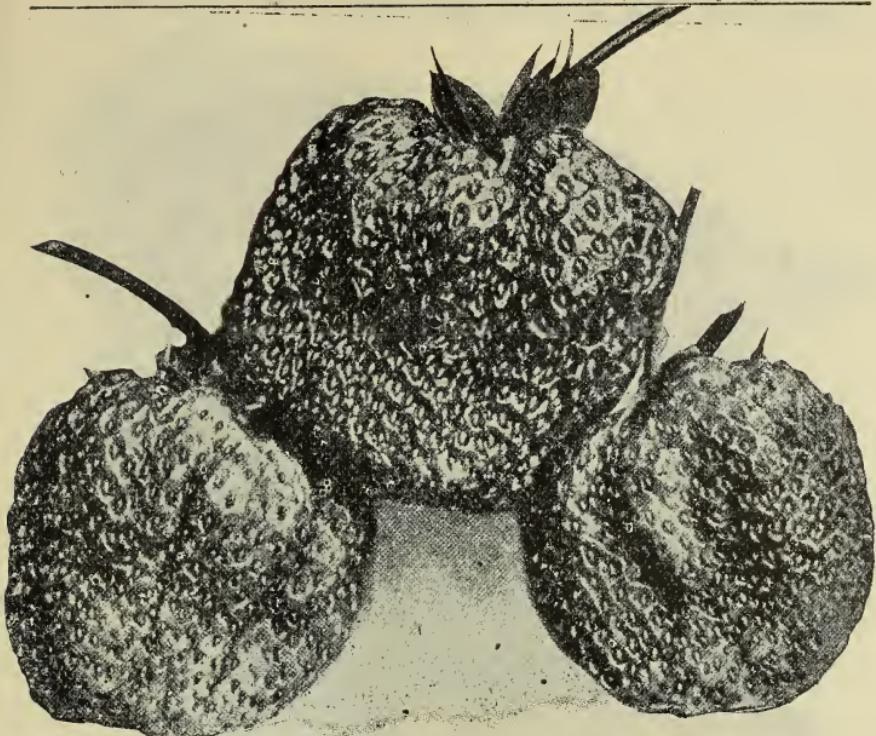

Only leading varieties mentioned.

Cherry, Fay's Prolific, White Grape, Victoria, London Market, Black Naples. If these bushes do well, will fruit good next season.

STRAWBERRY CULTURE

Our system of setting plants is for one to look after the care and kind of plants, the way they should be set to do well, both in fruiting and to last for three or four years without resetting. Take notice I have always set out a large bed of strawberries each spring, have never yet had too many. We always set plants very solid in the ground with a trowel, 12 to 18 inches apart, $3\frac{1}{2}$ to 4 feet wide in the rows; this is for field culture.

Drop Around About April 1st. I Will Save You Money

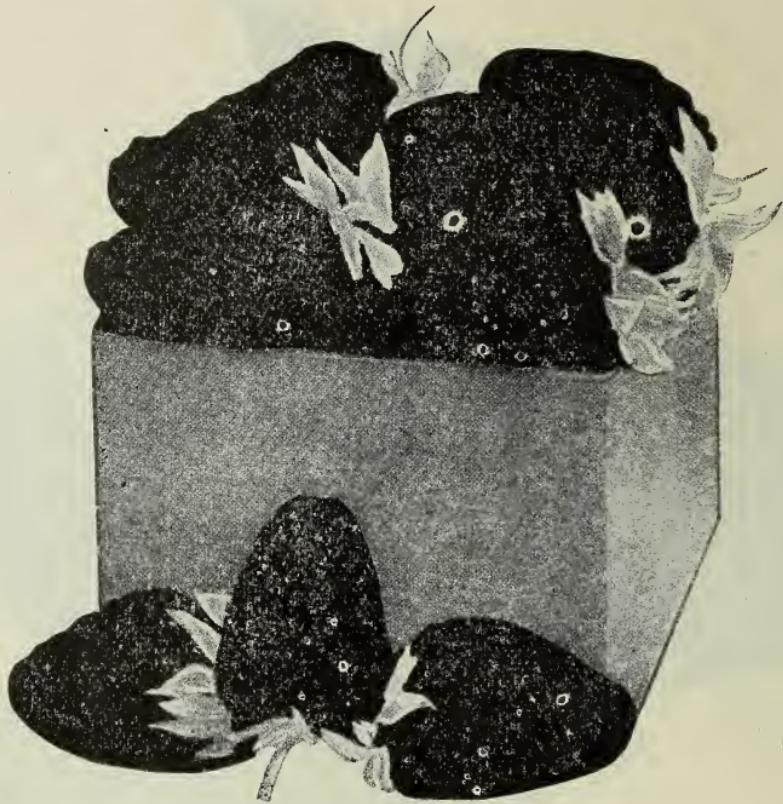

This is a picture of the Pride of Michigan, advertised in the list.
Other varieties just as large and prolific

STRAWBERRIES

Strawberries, as the old saying is, is my hobby. Raising them in such quantities as I have been, I, of course, am ready for advice; also ready to give advice. Pardon me for saying that for you to get the berries of size and quality, also plants of strong growing power, you cannot miss it by placing your order with me instead of with the man who has had but little or no experience with them for large fruiting purposes to compete in such markets as I have the past few years. I have furnished plants to growers whose markets are Peoria, Galesburg, Princeton, Kewanee, and several smaller places, the berries bringing top prices on the market and growers well satisfied with yield. Owing to the fact that my nursery trade is growing so rapidly, I will be unable to set any plants away from home this season. My plants such as I will mention and have spared neither money nor pains to bring to the highest standard of perfection are: Early Varieties—Clyde, Warfield. Medium Varieties—Enormous, Wm. Belt, Senator-Dunlap, Haverland. Late—Brandywine, Bubach, Sample. Allow me to say that there are other good varieties, but these are of the best.

My prices you will find are very reasonable and stock of full count. I put 26 good plants in a neat bundle, roots all one way and properly labeled. Fine plants well selected varieties, from my nineteen years experience, only 75c per 100; \$2.75 for 500; \$4.50 for 1000. These prices are somewhat lower than competitors and you are sure to get the largest berries grown by buying.

Have tried and tested the Aroma and Stevens' Late Champion, also Pride of Michigan; are very fine without a doubt. Only a limited number of plants going at the same price. These are fine plants and true to name.

These berries are of the very finest quality, both in size and flavor. Devoting a great deal of my time and study to the raising and cultivation and care of the strawberry, which is my favorite of all fruits to raise, I may be able to help you a little along this line in setting out plants for your use.

Have added to my list a few more varieties of berries which I have tried out to my satisfaction and know they will please the most exacting. Take my word for it, you will never be disappointed in them for size, productiveness and flavor. What more could we ask? Place your orders heavy as this ground must be cleared this spring. And order Gibson, Heritage, Improved Haverland, St. Louis, Helen Davis. These plants, owing to the large supply and must be moved, will go at 75c per 100; 1000 for \$4.50. Pick up these snaps while you can, but you must place your order early for these prices will sell these goods. I have always sold these at \$2.00 per hundred.

RASPBERRIES

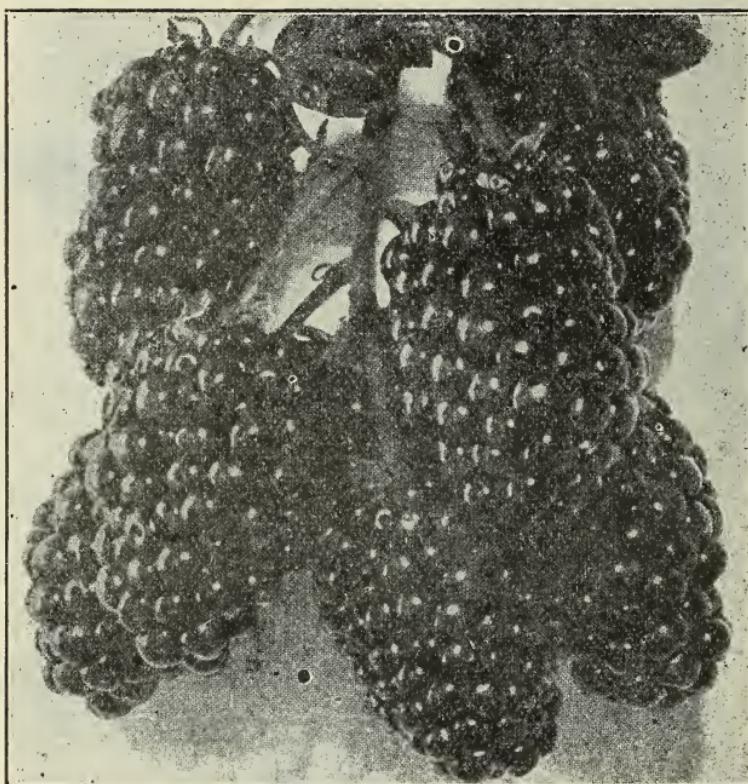

The best and surest that grow is the Gregg.
Thousands of plants for sale. Very hardy.

Buy your raspberry plants of me. I will prove to you that they are hardy and worth the money. Write me on large orders. I feel confident I am in a position to give you the very best of plants that will yield you nice large fruit, both in Black Caps and Red Varieties, marketing in 1914, 10,888 quarts.

| | |
|---|----------------------------|
| Gregg, the best Black for this section..... | 25 for 75c; 100 \$2.50 |
| Kansas, a very good Black Cap..... | 100 2.50 |
| Cumberland, up with the Gregg only in hardiness | 10 for 40c; 100 \$3.50. |
| Columbia Red | 10 for 50c; 100 for \$4.00 |
| Turner's Red, thornless..... | 10 for 35c; 100 for 2.50 |
| Cuthbert | 10 for 35c; 100 for 2.50 |

I have this year a few hundred plants transplanted which I will sell 100 for \$3.00.

Notice I have the 1 and 2 year plants that will bear fruit soon after planting.

BLACKBERRIES

Above cut shows the Mersereau. Plants selling fast at \$4.00 per hundred. Snyder, Kittitiney, good roots, \$1.50 per hundred. My aim at all times is to get the largest and best variety of berries yet introduced.

The Eldorado Blackberry is the best that grows. I am positive this blackberry will outclass all others—better than the Mersereau, as they never rust and are just as large or larger, and as prolific as any other variety. These plants are choice goods and you will find them worth the money at 5c per plant, \$2.25 for 50. We set out 6,000 of these plants for our own fruiting last spring, so you may depend upon it they are O. K.

GARDEN ROOTS

Asparagus, good roots 10 for 20c; 100 for \$1.25
Rhubarb Linneas, 2 years old, strong, each 10c; 10 for 75c
Horse Radish, dandy roots, each 5c; 10 for 35c

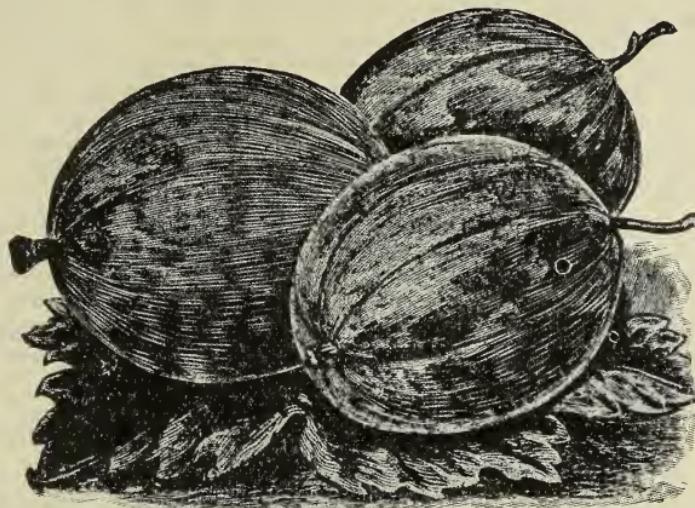

Do not accept one year old for two year old plants at higher prices. Get the best. That is what you pay for here.

GOOSEBERRIES

Replaced at $\frac{1}{2}$ price. Am growing these in large quantities.

| | |
|---|--------------------|
| Two-year-old Downing, white variety, (note the price) each | 15c; 10 for \$1.25 |
| Houghton, red | 15c; 10 for 1.00 |
| Industry, red | 25c; 10 for 2.00 |
| Josslyn | 15c; 10 for 1.50 |

These bushes are ready for fruiting now, in size.

If you have never spent a dollar for trees, shrubs or vines, to improve your place, you had better do it now. Times were never better, stock never better, and for myself, I will say I never was in better condition to give customers a higher grade of stock than I can this spring, for so little money.

READ THESE DONT'S

Read and Heed These Dont's and You Will not Be Disappointed

Don't order a bill of Nursery stock and leave the varieties altogether for the Nurseryman. What pleases one disatisfies another.

Don't spend your money for my goods when you know you will not take care of them.

Don't forget to wrap your trees to protect them from rabbits.

Don't cover your strawberry plants so deep they will smother.

Don't put off covering them with a light litter of straw until too late.

Don't worry about the outcome of your purchase when buying here.

Don't put off your orders till fall. Now is the time.

Don't put your strawberry plants on a piece of ground that is foul.

Don't be backward. Make yourself right at home at our place.

Don't be waiting on your neighbor's fruit. Set out for yourself.

Don't forget to speak a good word for me whenever possible.

Don't spend a half day listening to the tales of an agent. Just come right here and be waited on in a few minutes.

Don't expect me to call on you every year to see about the replace. Customers are too far apart. Just come or write me.

Do Not Bother With the Agents. Just Send to Me

Don't buy a bill of Nursery stock and expect me to wait two or three years for pay. My margin is too small. I do not buy Nursery stock on credit.

Don't think you can duplicate these goods for the prices. Show me.

FRESH FRUIT IN SEASON

As a fruit grower, selling all kinds of fruit on the market, the one thing to keep in mind is to keep your fruit up to date, put in neat packages, trying to make each box as good or better than the one before; also to give good measure. I want people to feel when buying a case or a box of berries of me, I stand ready at any time to make them satisfactory. I admit there are at times customers who think the fruit too high. We never hear much about it being too cheap. Get to raising and marketing fruit. You will see it is worth all we get. My aim is to have the best fruit, and to get the best prices. I take pride in making my fruit ready for the most exacting customers. We are in the race and by keeping abreast with the best fruit that money can buy, we are bound to win. Your cheers will be encouraging and help me to be one of the largest and best fruit growers that this country affords. I have been more than pleased with your patronage as a buyer of fruit. Hoping you will continue to be a true friend and customer, I remain,

Respectfully,

G. A. WHITE.

ROSES

Read this before ordering your rose bushes. In fact, read my catalogue from start to finish. Perhaps some of the prices quoted will interest you. In regard to rose bushes. If I do not please you I want to know about it. Some there are who put out rose bushes and get the best results. I am one of them. Don't expect nice large blooms from plants not properly set and cultivated. Roses should be in your garden and cultivated often for the best results. Do not understand that all bushes I sell are sold under a positive guarantee that all are true to name, by any means. We do our best to keep and sell all bushes, trees and vines true to name, and are ready to give you one and all the worth of your money.

You cannot go wrong when headed for or land at G. A. White's Nursery.

| Lilacs, purple and white, 2 ft. | 25c | |

We Are Located Just About 140 Rods East of the Rock Island Depot in La Fayette, Ill.

Wisteria, Chinese White, good roots..... 75c
Wisteria, Purple Chinesis, good roots..... 30c
Snow Ball, 2 to 3 ft., nice bushes..... 25c
Spireas, several varieties going cheap this spring.
Spireas Vanhootii, Bridal Wreath.

Write me for trees in lots of 100 for wind-breaks. I will surprise you in the low price I will make.

Notice—We are growing ornamental trees by the thousand, both for wind-breaks and lawns and have a good assortment at all times. Compare these prices with others of the same grade.

These trees must be taken from ground this spring; write me for prices.

ORNAMENTAL HEDGING

Shrubs and trees you can use them to make a fancy fence or your lawn look nice. They are ornamental and are fine for the business. Barberry, purple leaf, 15 to 18 in. 20c each; 10 for \$1.90. Japanese Barberry, 15 to 18 in. each 25c; 10 for \$2.00; 100 for \$12.50. California Private, 2 or 3 ft. nice stock, each 20c; 100 for \$10.00. Flowering Currants, nice ones, 18 to 20 in., 25c each. American Arbor Vitae, 14 to 18 in. 20c.; 10 for \$1.90. This stock is all grown here and fresh dug at the time of your order. Send your order direct to me for what you want. The goods are all right and compared with others, the price is alright.

EVERGREENS

2 to 3 Feet

Replace at $\frac{1}{2}$ price

| | Each | Ten |
|-----------------------------------|-------------|------------|
| Arbor Vitae, Am. 2 to 3 ft..... | 25c | \$2.50 |
| Arbor Vitae, Am. 12 to 18 in..... | 20c | 2.00 |
| Balsam Fir, 3 ft. | 40c | 3.50 |
| Pine Scotch, 12 to 18 in..... | 20c | 2.00 |
| Pine Scotch, 2 to 3 ft..... | 25c | 1.75 |
| Red Cedar | 25c | 2.25 |
| Spruce, Norway, 2 to 3 ft..... | 25c | 2.25 |
| Spruce, Norway, 12 to 18 in..... | 20c | 2.00 |
| Spruce, Norway, 3 to 4 ft..... | 25c | 2.25 |
| Juniper, Irish | 35c | 3.50 |
| Hemlock Spruce | 40c | 3.50 |

These must be moved this spring. Write me for prices on the wind-break.

I have bought nursery stock of G. A. White for a good many years and I find him always ready to make good anything not satisfactory. The goods are fine and the prices right.

**W. O. CHURCH,
LaFayette, Illinois.**

I bought a hay rack load of trees and plants of G. A. White, and they all done fine, no replace was required and you will do well to see him.

**MARTIN DOWING,
Toulon, Illinois.**

Do not Get These Goods and Prices Mixed With Competitors

As a matter of fact, I have sold my place at LaFayette. I am obliged to move this stock this spring by April 15, 1916, and if prices and goods will have a thing to do with it, it will be a small matter. Will make my headquarters in Kewanee, Ills., but the goods and myself will be at the Nursery at LaFayette, to give you my best attention and prices on this stock. I do not expect to transplant any saleable trees or plants up at Kewanee, only small stock, so get in on the ground floor. Buy these goods and they come with the same guarantee I always have given and will be replaced just the same as ever. And all know when it comes to a replace on unsatisfactory stock, I cannot be beat. You know that, and I am going to unload several dollars worth of good trees and plants way below their worth as this ground must be cleared. Yours for business. Write me at 617 S. Main St., Kewanee, or phone 5143, and in the digging season call me at LaFayette at the Nursery.

Respectfully,
GEO. A. WHITE & SON.
